SHESHANATHAN S

Full-Stack Developer | MERN Stack

Chennai, Tamil Nadu | +91 99943 67106 | sheshumaya@gmail.com
LinkedIn | GitHub | Portfolio

Professional Summary

Entry-level Full-Stack Developer experienced in building and deploying MERN applications with React.js, Node.js, Express.js, and MongoDB. Implemented RESTful APIs, CRUD workflows, JWT authentication, role-based access control (RBAC), server-side validation, API rate limiting, and Cloudinary integration. Additional projects in Python, SQL, and Power BI.

Technical Skills

Languages: JavaScript, Python, SQL, HTML5, CSS3
Frontend: React.js, React Router, Vite, Tailwind CSS, Responsive Web Design
Backend & APIs: Node.js, Express.js, RESTful APIs, CRUD Operations, JWT Authentication, RBAC, Server-Side Validation, API Rate Limiting
Databases: MongoDB, Mongoose, MySQL, Firebase Firestore
Tools & Deployment: Git, GitHub, Postman, Cloudinary, Vercel, Render, VS Code
Data Analysis: Pandas, Power BI, Matplotlib, Exploratory Data Analysis (EDA), KPI Analysis, Excel

Work Experience

BRR Softwares Systems Private Limited *July 2026 – Present*
Software Development Intern

- Investigate web application defects, identify root causes, and implement code-level fixes.
- Validate user-role workflows and perform functional and regression testing to verify fixes and expected application behavior.

Projects

WCase – Creator Portfolio Platform Live Demo | GitHub
React.js, Node.js, Express.js, MongoDB, Cloudinary

- Built and deployed a full-stack creator portfolio platform for managing image/video content, sharing public portfolios, and receiving visitor enquiries.
- Implemented JWT authentication, email OTP recovery, server-side file validation, and API rate limiting.
- Integrated Cloudinary storage and built responsive creator dashboards and public pages with like/share functionality.

elog – Employee Management System Live Demo | GitHub
React.js, Node.js, Express.js, MongoDB

- Developed a MERN employee management system with JWT authentication, protected routes, and role-based access control (RBAC) for administrator and employee workflows.
- Implemented RESTful CRUD functionality for employees, departments, designations, attendance, and leave, including validation, attendance corrections, and leave-approval workflows.
- Added check-in/check-out, working-hour tracking, CSV employee import/export, and password recovery.

Customer Churn Analysis GitHub
Python, Pandas, Power BI

- Analyzed 7,032 telecom customer records using Python and Pandas to examine churn patterns by contract type, tenure, and payment method.
- Created an interactive Power BI dashboard with KPI cards and filters to visualize churn trends and customer-retention insights.

E-Commerce Sales Analysis GitHub
Python, SQL, Power BI

- Cleaned and analyzed 9,994 sales records using Python and SQL; applied EDA and KPI analysis to compare sales and profit by region, customer, and product category, then visualized findings in Power BI.

Education

B.E. Computer Science and Engineering (AI & ML) *Nov 2022 – Apr 2026*
Easwari Engineering College, Chennai

Higher Secondary Education *Jun 2021 – May 2022*
St. Joseph's Matriculation Higher Secondary School, Perambalur

Leadership & Activities

Digital Head – CSE (AI & ML) Department | Short Film Editing | Tennis
