# SHESHANATHAN S

Chennai, Tamil Nadu

+91 99943 67106 — sheshumaya@gmail.com — LinkedIn — GitHub — Portfolio

## Professional Summary

Computer Science Engineering graduate specialising in AI & ML with hands-on experience building and deploying full-stack MERN applications. Skilled in React.js, Node.js, Express.js and MongoDB, with practical experience in RESTful API development, JWT authentication, role-based access control, database integration and responsive web development. Proficient in Git/GitHub, API testing, Python and SQL, with experience taking applications from development to production deployment.

## Education

**B.E. Computer Science and Engineering (AI & ML)** Nov 2022 – Apr 2026

Easwari Engineering College, Chennai

**Higher Secondary Education** Jun 2021 – May 2022

St. Joseph's Matriculation Higher Secondary School, Perambalur

## Technical Skills

**Languages:** JavaScript, Python, SQL, HTML, CSS
**Frontend:** React.js, Vite, React Router, Tailwind CSS, Responsive Web Design
**Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication, Role-Based Access Control (RBAC)
**Databases:** MongoDB, Mongoose, MySQL, Firebase Firestore
**Data Analytics:** Pandas, Power BI, Matplotlib, EDA, KPI Analysis, Excel
**Developer Tools:** Git, GitHub, Postman, VS Code, Vercel, Render

## Projects

**WCase – Creator Portfolio Platform** | React.js, Node.js, Express.js, MongoDB Live Demo | GitHub

- Developed and deployed a full-stack creator portfolio platform for managing image/video works, publishing shareable public portfolios and receiving visitor enquiries.
- Implemented JWT authentication, email OTP/password recovery, media uploads, portfolio publishing, likes and sharing with secure access controls.
- Integrated Cloudinary for media storage with server-side file validation and rate limiting, building responsive creator and public portfolio interfaces.

**elog – Employee Management System** | React.js, Node.js, Express.js, MongoDB Live Demo | GitHub

- Developed and deployed a full-stack employee management system with JWT authentication, protected routes and Admin/Employee role-based access control.
- Built employee, department, designation, attendance and leave modules with CRUD operations, validation, attendance corrections and leave approvals.
- Implemented check-in/check-out, working-hour tracking, CSV employee import/export, password recovery and RESTful API integration.

**Customer Churn Analysis** | Python, Pandas, Power BI GitHub

- Analysed **7,032 telecom customer records** using Python and Pandas to identify churn patterns, customer behaviour and retention trends.
- Identified major churn factors including contract type, tenure and payment method, and developed an interactive Power BI dashboard with KPI cards, filters and visualisations.

**E-Commerce Sales Analysis** | Python, SQL, Power BI GitHub

- Analysed **9,994 e-commerce sales records** using Python and SQL to identify sales, profit, customer, regional and product-category performance trends.
- Performed data cleaning, EDA, SQL aggregation and KPI analysis, and developed an interactive Power BI dashboard to communicate business insights.

## Leadership & Extracurricular Activities

**Digital Head – CSE (AI & ML)** — Short Film Editing — Tennis
