# SHESHANATHAN S

**Full-Stack Developer | MERN Stack**

Chennai, Tamil Nadu | +91 99943 67106 | sheshumaya@gmail.com

LinkedIn | GitHub | Portfolio

## Professional Summary

Entry-level Full-Stack Developer with hands-on experience building and deploying MERN applications using React.js, Node.js, Express.js and MongoDB. Implemented RESTful APIs, JWT authentication, role-based access control (RBAC), CRUD operations, server-side validation, API rate limiting and Cloudinary media integration. Additional project experience in Python, SQL and Power BI.

## Technical Skills

**Languages:** JavaScript, Python, SQL, HTML5, CSS3

**Frontend:** React.js, React Router, Vite, Tailwind CSS, Responsive Web Design

**Backend & APIs:** Node.js, Express.js, RESTful APIs, JWT Authentication, Role-Based Access Control (RBAC), CRUD Operations

**Databases:** MongoDB, Mongoose, MySQL, Firebase Firestore

**Tools & Deployment:** Git, GitHub, Postman, Cloudinary, Vercel, Render, VS Code

**Data Analysis:** Pandas, Power BI, Matplotlib, Exploratory Data Analysis (EDA), KPI Analysis, Excel

## Projects

**WCase – Creator Portfolio Platform** Live Demo | GitHub

*React.js, Node.js, Express.js, MongoDB, Cloudinary*

- Built and deployed a full-stack platform for creators to manage image/video content, publish shareable portfolios and receive visitor enquiries.
- Implemented JWT authentication, email OTP password recovery, server-side file validation and API rate limiting.
- Integrated Cloudinary media storage and developed responsive creator dashboards and public portfolio pages with like and share functionality.

**elog – Employee Management System** Live Demo | GitHub

*React.js, Node.js, Express.js, MongoDB*

- Built an employee management application with JWT authentication, protected routes and role-based access control for administrator and employee workflows.
- Developed RESTful CRUD modules for employees, departments, designations, attendance and leave, including validation, attendance corrections and leave-approval workflows.
- Implemented check-in/check-out, working-hour tracking, CSV employee import/export and password recovery.

**Customer Churn Analysis** GitHub

*Python, Pandas, Power BI*

- Analysed 7,032 telecom customer records using Python and Pandas to investigate churn patterns across contract type, tenure and payment method.
- Built an interactive Power BI dashboard with KPI cards and filters to present churn trends and customer-retention insights.

**E-Commerce Sales Analysis** GitHub

*Python, SQL, Power BI*

- Cleaned and analysed 9,994 sales records using Python and SQL, applying EDA and KPI analysis to compare sales and profit by region, customer and product category; visualised findings in Power BI.

## Education

**B.E. Computer Science and Engineering (AI & ML)** *Nov 2022 – Apr 2026*
Easwari Engineering College, Chennai

**Higher Secondary Education** *Jun 2021 – May 2022*
St. Joseph's Matriculation Higher Secondary School, Perambalur

## Leadership & Activities

**Digital Head – CSE (AI & ML) Department** | Short Film Editing | Tennis
